# Fungicide Tebuject™

## Target Disease

- Crabapple Scab
- Dutch Elm Disease
- Hawthorn Leaf Spot
- Oak Wilt
- Other Wilt Diseases

## Research

Disease	Researcher Facility	Findings
Anthracnose	<b>Terry Tattar</b> University of Massachusetts	Effective control in 3 studies: 1 injection for 1 season, 1 injection for 2 growing seasons, and 2 injections over 2 growing seasons. Trees given second injection showed improved health condition compared to untreated trees at end of next field season and the condition ratings at the beginning of the study.
